

Legend
 A.R.P. Aerodrome Reference Point
 100m A.O.D. Aerodrome Reference Level

- Notes**
1. This Safeguarding Map is prepared in accordance with the criteria recommended by the Civil Aviation Authority in CAP 168 "licensing of Aerodromes".
 2. The Map indicates the height above which any object and construction works, including temporary works such as cranes, on or near the Airport, may pose a hazard to aircraft using the Airport, may restrict the safe operation of the airport and may contravene the CAA Aerodrome Licensing criteria.
 3. Where the Local Planning Authority, LPA, receive an Application for permission to carry out development, which appears to infringe the height criteria set out on this Map, they are requested to consult with the Airport Management.
- Similarly, if any such Application does not infringe the height criteria, construction may be permitted without consultation with the Airport Management.
4. This Safeguarding Map remains valid until further notice.
 5. Local Authorities covered by the safeguarding are:
 Hart District Council
 Hampshire County Council

Height Criteria: All buildings, structures, erections and works (refer Paragraph 3 above)

Warnings:

Areas hatched RED:	Exceeding 26ft in height (8.5m)
Areas coloured RED:	Exceeding 35ft in height (10.7m)
Areas coloured GREEN:	Exceeding 50ft in height (15.2m)
Areas coloured YELLOW:	Exceeding 150ft in height (45.7m)
Areas coloured BLUE:	Exceeding 300ft in height (91.4m)
